You can live-stream this conference for just \$9.99 by registering at www.situationroom.net

Is Self-Defense Biblical or are we to turn the other cheek? What about defending others? Our family? Ourselves? Have you considered some key elements necessary to keep yourself and possibly others safe when an active shooter or terroristic event unfolds?

When it comes to self-defense or the defense of others, there are a few things to consider ahead of time, that is, NOW, if you haven't already. Based on over 20 years of military experience and combining his training in both civil and military tactical aviation, as well as owning a firearms and tactical training business, in a two part talk, Jason will help you consider answers to the following questions:

Part 1: The Worst Case, Are you prepared? By Jason Pratt

What are the possible scenarios you must consider and prepare for with your family ahead of time? We'll discuss scenarios—at home guarding your family, at church, a public event, large gatherings, and even alone in that dark alley—how to discuss these things with your family and establishing a plan and code words to act upon when danger arises. What is the difference between concealment and cover and how can they save your life or buy precious time when every second counts? You'll learn how to scan an area and identify these potentially life-saving barriers to danger! What do you know about gaining situational awareness and developing an exit strategy? If you don't know what's happening, you can't know how to

respond! What are the training resources you should consider? You can seek out resources to learn more and better prepare yourself!

Part 2: The Bible—The Christian's Weapon of Choice, By Jason Pratt

What are the Scriptural implications, mandates, and guidances regarding self-defense and the defense of others? What do you think of when told to "submit to authority?" Who or what authority is that? What does the Bible say about whether a Christian can or should own a firearm for protection? What are the careful considerations and Biblical principles everyone MUST consider?

"America is Losing the War & Doesn't Even Know It," by John Guandolo and Chris Gaubatz (John and Chris will each speak twice)

Understanding the Threat's (UTT) presenters, John Guandolo & Chris Gaubatz, will discuss the Global Islamic Movement, what they seek to accomplish, their US network, what is driving them, and how they have moved to the point of victory while US leaders remain catastrophically clueless.

Details of the U.S. Muslim Brotherhood, their doctrine (sharia), modus operandi, and how they have penetrated our American system at the local, state, and national level will be revealed and put into context of current events.

Why do the Islamic State, Al Qaeda, Hamas, Hizbollah, Saudi Arabia, Pakistan, Iran, the Muslim Brotherhood, and all of the Islamic jihadis do what they do? THEY say it is to establish an Islamic State (caliphate) under Islamic Law (sharia).

What is the stated purpose of Islam? To establish an Islamic State (caliphate) under Islamic Law (sharia).

UTT is the only organization in America giving citizens, law enforcement, and leaders tools to identify, map out, and dismantle the jihadi network in communities all over the nation. UTT leadership has accurately assessed and predicted events that no one else in the nation accurately assessed

and predicted because we assess threats based on the professional standard of evaluating the threat based on how the enemy identifies itself and why the enemy states it is fighting.
